Experiment 4: Mobile Network Protocol Stack

Aim:

To create a visual representation of the key elements of mobile network protocol stacks using Figma.

Procedure:

1. Create a new frame in Figma.
2. Identify the application, transport, network, data-link, and physical layers.
3. Represent each layer using a separate rectangular block.
4. Add protocol examples and functions to each layer.
5. Use different colours to distinguish the layers.
6. Arrange the layers vertically and connect them to show data flow.

OUTPUT:
