Experiment 13: Mobile Communication vs Mobile Computing

Aim: To design an infographic comparing mobile communication and mobile computing using Figma.

Procedure:

1. Create a new infographic frame.
2. Divide the frame into two sections.
3. Explain mobile communication and mobile computing in separate sections.
4. Compare their purposes, technologies, components, and applications.
5. Add suitable icons and real-world examples.
6. Apply consistent formatting and review the completed infographic.

OUTPUT:
