Experiment 1: Interactive Diagram of a Basic Cellular System

Aim:

To create an interactive diagram illustrating the components of a basic cellular system using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Draw and label the Mobile Station (MS), Base Transceiver Station (BTS), Base Station Controller (BSC), and Mobile Switching Center (MSC).
3. Add PSTN and Internet components to represent external networks.
4. Connect the components using arrows to show communication flow.
5. Use colours and icons to distinguish the components.
6. Add prototype interactions to display component details when clicked.

OUTPUT:
